2.5 Job Posting for R&I Support Staff at PACT

Universities from which the applicant can participate:	

AUTh, JSI

R&I Support Staff definition:	

<u>Administrative/managerial/technical profiles supporting R&I</u>: focus on innovation services, tech transfer, project ops, dissemination, ecosystem engagement.
<u>Typical activities</u>: organising workflows, events/training, stakeholder engagement, knowledge valorisation.

Environment:	

PACT offers a unique environment for R&I support staff to have hands-on experience in technology transfer, innovation management, and stakeholder engagement, strengthening their skills, networks, and understanding of innovation ecosystems.

Role & Activities	

Position / role title for the secondee: R&I Project Manager

Key activities the secondee will do:	

Build and maintain relationships with companies and the ecosystem management model.
Engage in business information and capacity-building initiatives.
Promote and dynamize the ecosystem.
Participate in projects and consortia.

Preferred requirements for the job position:	

Basic knowledge of project management and open innovation systems to support all phases of development and collaboration.
Experience fostering relationships with companies and startups.
Knowledge of ecosystem management within science and technology environments.
Interest in management and capacity-building in the field of entrepreneurship.

Expected learning outcomes for the secondee:	

- Be able to disseminate ecosystem management best practices in the context of a science and technology park.
- Acquire cross methodologies and optimize results in open innovation and cooperation processes.
- Learn how to enhance processes that promote entrepreneurship and innovation.

Duration & Flexibility	

1,5 months
Project window: All secondments occur within the project lifetime. First round of secondments is set between March 2026 (planning month) / April 2026 until October 2026.

Learning & Integration Activities	

Provide **hands-on project work** aligned to host activities.

Offer **cross-functional collaboration** and **networking** (e.g., industry days, informal team lunches).

Facilitate **knowledge-sharing** (internal talk/demo or public presentation where appropriate).

Where possible, enable **training/events** within your ecosystem (e.g., park/tech-centre activities).
